Introduction to the Yeosu International WebFest

The Yeosu International Web Fest is an international festival that showcases creative and outstanding web content, short-form videos, music videos, and more from both domestic and international creators. This event, being held for the first time in the beautiful maritime city of Yeosu, offers a platform where creators from around the world can freely present their work in the digital age.

Play in Yeosu. Enjoy in Yeosu!

This festival, set in the beautiful city of Yeosu, will inspire creators and offer an unforgettable experience to all participants. The Yeosu International Web Fest promises to grow beyond just a festival, becoming a community where creators can come together, communicate, and exchange ideas.

Yeosu, the beautiful port city and key hub on the southern coast of Korea!

In Yeosu, the host city of the Expo, you will be able to experience the stunning natural scenery of its islands and seas, along with the unique cultural experiences and pleasures that only Yeosu can offer.

Goals and Vision

The primary goal of the Yeosu International Web Fest is to promote innovation and creativity in digital content within South Korea, while fostering a global community of digital content creators. As an international web festival, we aim to provide opportunities for creators from diverse cultures and backgrounds to come together, share experiences, and explore new possibilities for collaboration. Through this, we seek to offer creators new experiences and motivations.

The 1st Yeosu International WebFest

Trophy

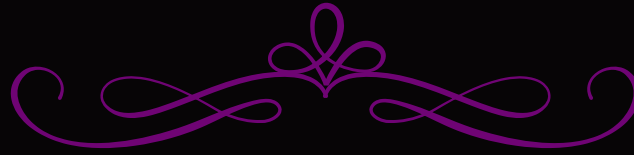

Symbols of Yeosu: Seagulls and Lighthouses

The trophy for the 1st Yeosu International Web Fest is an artistic piece that symbolically represents the nature and culture of Yeosu. This trophy is shaped like a seagull, the city bird of Yeosu, embodying creativity and freedom. The base features a lighthouse and a gate, symbolizing Yeosu as a marine tourism city, with the lighthouse representing the light of hope and wisdom. The trophy, finished in gold, is a tribute to the outstanding achievements and efforts of the recipients, making it a valuable keepsake to be remembered forever.

Message to the Award Recipients

This trophy is awarded to creators who have been recognized for their outstanding achievements at the Yeosu International Web Fest. We hope that your passion and creativity will continue to inspire even greater things, and that you will carry the symbols of Yeosu with you as you embark on new challenges.

The 1st Yeosu International Webfest

As the summer, which was particularly hot, seems to be coming to an end, the cool breeze in the mornings and evenings suggests that autumn is just around the corner. At the threshold of autumn, where the blue sea of Yeosu becomes even deeper, I am truly honored and delighted to celebrate the opening of the 「1st Yeosu International Webfest」.

Yeosu, a key city on the southern coast of Korea, has established itself as the country's premier marine tourism and leisure city, thanks to its natural environment and abundant tourism content.

Starting with the 2012 Yeosu World Expo, the city has developed a comprehensive transportation network, including air, sea, and land routes, along with various accommodation facilities, and has been promoting itself as a city of youth and romance through distinctive marketing strategies.

Among these, I firmly believe that 'web dramas' have created a new paradigm for promoting Yeosu. Since the production of "Shin Jikki" in 2016, Yeosu City has produced nine web dramas showcasing the beautiful tourist destinations of the region up to this year. Although produced on a low budget, these dramas have received various awards both domestically and internationally, recognizing their high quality and artistic value.

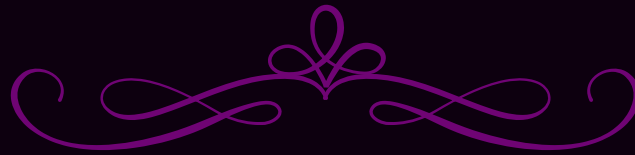

This experience has elevated Yeosu to the status of the top web drama hub in Korea and served as the driving force behind hosting the world-renowned webfest as the first local government to do so. The 1st Yeosu International Webfest will be the first step in making Yeosu a global marine tourism and leisure city in the era of new media and the OTT market, where sharing and spreading have great impact, and it will be a valuable asset for endless growth in the future.

I hope that through this festival, we will encounter many works from around the world that are full of fresh planning and ideas, and that this event, as it takes its first step, will become a celebration for digital creators from various countries.

Thank you for visiting Yeosu, and I hope you create unforgettable memories during your stay here. I also look forward to meeting you again at the 2026 Yeosu World Island Expo. Thank you.

2024. 9.

Jung Ki-myung, Mayor of Yeosu

opening speech

Hello, everyone.

I am Lee Soon-jae, the Chairman of the Organizing Committee for the Yeosu International Web Fest and a film actor.

I sincerely welcome all of you to the 1st Yeosu International Web Fest Awards.

I am very pleased that we can gather creators and audiences who love web content from around the world here in the beautiful marine tourism city of Yeosu.

Today's web content goes beyond mere media and becomes a new form of art. Webfest will expand its creative possibilities, introduce outstanding works from all over the world, and be a place where various cultures and ideas can interact.

I hope that the Yeosu International Web Festival will inspire you anew, and provide creators with an opportunity to be recognized on the international stage. Also, I hope that this festival will help promote Yeosu's charm and develop it into a culturally rich city.

Lastly, I would like to thank everyone who worked hard for this event, and I hope that everyone who attended will have a pleasant and informative time. Thank you.

Chairman of the 1st Yeosu International Webfest
Organizing Committee

Lee Soon-jae

Congratulatory speech

It's very nice to meet you.

I'm Baek In-sook, chairman of Yeosu City Council.

We are very happy to host the first Yeosu International Webfest, a world-class international festival of web dramas and web films, in Yeosu, an international maritime tourism city.

I would like to express my sincere welcome to all the distinguished guests and attendees, and especially to all those who visited Yeosu from far away.

I would like to express my deep gratitude to Chairman Lee Soon-jae and other officials for their hard work in preparing this event successfully.

I would also like to express my gratitude to Mayor Chung Ki-myung for his continuous support for the successful hosting of the first international event.

Now we are living in an era of 'creator economy.' Advances in digital platforms have created an opportunity for anyone to showcase their ideas and talents to the world. Today, web content is at the center of culture and art around the world, and its influence is growing day by day. Amid these changes, Yeosu has won several awards at various web festivals at home and abroad, informing the world of its web content creation capabilities. I hope that this first international webfest will serve as an opportunity for Yeosu to grow into the center of the global content industry.

Lastly, I hope you have great memories in Yeosu, a beautiful city full of romance, and I sincerely hope that this Webfest will establish itself as a world-class festival. Thank you.

September 2024

Chairman of Yeosu City Council, Baek In-sook

Congratulatory speech

Dear Citizens of Yeosu,
and participants of the Webfest who have come to visit Yeosu,
Greetings! I am Joo Cheol-hyun, Member of the National Assembly
for Yeosu and the Chairman of the Jeonnam Provincial Party Com-
mittee of The Minjoo Party.

I sincerely congratulate you on the occasion of the 1st Yeosu Inter-
national Webfest, held in Yeosu, Korea's premier marine tourism
city.

I would like to extend my sincere gratitude to Chairman Lee Soon-jae and all the officials who
have worked tirelessly to prepare for the Yeosu International Webfest.

Web dramas have become one of the best promotional tools to meet the demands of viewers
who primarily use smartphones due to changes in the media environment. They are effectively
utilized by local governments and large corporations as an efficient means of promotion. During
my tenure as mayor in the 6th term, I introduced web dramas as a promotional tool for Yeosu,
and through productions like 'The Love Story of Sinji-ggi,' 'Yeomyeong,' and 'The Witch's Eye,'
we ushered in an era with 13 million annual tourists. Recently, with a total of nine web dramas,
including the latest 'Hamel,' Yeosu has become the city with the largest number of web dramas
in the country. Furthermore, 'Dongbaek,' which depicts the historical Dongbaek Incident, has
won the Golden Wolf Award at the Bilbao Webfest in Spain, continuously receiving recognition
for its quality both domestically and internationally. This is truly a moment of great pride.

This Webfest features a diverse range of genres and attractions from both domestic and interna-
tional sources. I would like to extend my heartfelt gratitude to the organizing committee and
participants who have created this meaningful event under challenging circumstances, enriching
the senses of our citizens. I look forward to seeing the Yeosu International Webfest develop into
a cultural content that enhances Yeosu's brand value.

Enjoy the Webfest to the fullest in Yeosu, the mecca of web dramas, alongside the romantic night
sea. I wish health and happiness to everyone here and their families. Thank you.

September 2024

Member of the National Assembly, Joo Cheol-hyun

Congratulatory speech

Everyone who loves web content! Nice to meet you.

Thanks to your interest and support, I am Cho Gye-won, who was elected as the 22nd Yeosu City National Assembly member. For the first time, a world-class web drama and film festival was held in Mihang Yeosu, a hub city on the beautiful southern coast. I find it very meaningful that it was held.

We would like to thank the Yeosu City Tourism Department and other members of the organizing committee for their hard work in preparing the festival. Well-made web content goes beyond simple entertainment and has the power to move viewers' hearts and introduce new places and cultures. Through this festival, we hope that the beautiful Yeosu, with its outstanding natural scenery, diverse culture, and deep history, will become the backdrop for a web drama or movie, captivating the hearts of people around the world with its special charm as a tourist destination, and providing an opportunity for more people to visit Yeosu. I look forward to it. As a member of the Culture, Sports and Tourism Committee at the National Assembly, I will spare no effort in providing interest and support for web content so that creators can freely express their ideas and create creative and innovative works.

Everyone who loves web content!!

Yeosu City has produced as many as 9 web dramas since 2016 and is said to have the largest number of web dramas among local governments in Korea. Yeosu City, which loves web content so much, is showing how creators around the world are sharing and appreciating each other's works and telling their stories through various web contents at this festival, and what innovative approaches are being taken in the process. It will be a special time to think about. Additionally, what makes this festival special is that it provides special moments that cannot be easily experienced, such as red carpets or awards, where outstanding web content and creators from around the world are rewarded for their passion and effort. We hope that the signing of MOUs with Brazil, the United Kingdom, the United States, and Slovakia through this event will be an important first step in promoting the globalization of web content. Once again, we would like to thank everyone who joined us at the festival. thank you

September 2024

Yeosu National Assembly member Cho Gye-won

Greeting

I consider it a great honor to serve as the chairman of the jury for the 1st Yeosu International Webfest.

We would like to thank all the creators who participated in this webfest. It was a very meaningful experience to witness such great works.

At this Yeosu International Webfest, excellent web content was submitted from 78 countries around the world. Each work provided the audience with emotion and enjoyment through original storytelling and creative direction. What I observed during the review process is that web content is opening up new possibilities by surpassing the limitations of existing media.

The content is well-written and free of grammatical errors. Here's the text again for reference:

In particular, I was impressed by the new generation of creators who combined technology and art to express their own unique styles. Although the judging process was very challenging and intense, our panel of judges selected the final winners through fair and careful evaluation. Since each work had its own distinct charm, making the final decision was difficult. All entries were outstanding, whether they won an award or not, and we have great respect for your hard work and passion.

Lastly, we hope that this festival will contribute to the development of the web content industry and that the Yeosu International Webfest will become a global event in the future. Thank you to everyone who joined us, and we ask for your continued interest and participation.

Thank you.

Chairman of the 1st Yeosu International Webfest Jury

‘Rhythm of the Night, Yeosu’ Candlelight Concert

On August 11th, the ‘Rhythm of the Night, Yeosu’ Candlelight Concert, held at Jongpo Marine Park in Yeosu City, offered a special night filled with candlelight and classical music. Themed "Yeosu Night Sea Singing by Candlelight," the concert featured over 4,000 candles and more than 10 classical music pieces, including movie theme songs. These were performed by Korea's premier performance group, the 'Dodam Ensemble,' during a 65-minute session. The audience was deeply moved by the beautiful melodies. Visitors were left with an unforgettable impression, thanks to the perfect harmony of Yeosu's romantic night sea, candlelight, and classical music.

Special Performance for Yeosu International Webfest Participants

For everyone attending the Yeosu International Webfest, Yeosu City has organized a special candlelight concert at Yeosu Woongcheon Waterfront Park on Thursday, September 5th, at 8 PM. This concert will make Yeosu's night even more special for participants with melodies of classical music harmonizing with Yeosu's beautiful natural scenery. This performance is an opportunity to experience the unique charm of Yeosu and will provide a moving experience for all attendees. We encourage your interest and participation. This performance, prepared by Yeosu City, is a special gift for Yeosu International Webfest participants. We hope that you will create and share precious memories in Yeosu through this performance, which will brighten your night in Yeosu.
